

[IPCC AR6 WGI REVIEW >](#)

## THANK YOU TO OUR REVIEW TEAM

The IAPSO ECS Network recently participated in their first group review of the Second Order Draft (SOD) of the Working Group I (WGI) contribution to the Sixth Assessment Report (AR6).

This initiative was led by **Malin Ödalen** (University of Arizona) and **Danielle Su** (LOCEAN-IPSL/CNRS) and would not have been possible without the invaluable contribution from the following IAPSO ECS members

- **Alexander Haumann**

(Princeton University)

- **Carlye Peterson**

(University of California Riverside)

- **Ivy Frenger**

(GEOMAR Helmholtz Centre for Ocean Research Kiel)

- **Irina Polovodova Asteman**

(University of Gothenburg)

- **Kay McMonigal**

(Rosenstiel School of Marine and Atmospheric Sciences)

- **Mari Fjalstad Jensen**

(University of Bergen)

- **Mara Freilich**

(MIT-WHOI Joint Program in Oceanography)

- **Svenja Ryan**

(Woods Hole Oceanographic Institution)

- **Yona Silvy**

(LOCEAN-IPSL/ Sorbonne Université)

[FOR THE COMMUNITY >](#)

We are currently living and working through turbulent times, with the ongoing coronavirus crisis and the protests against police brutality in the US. For many, it is a time of uncertainty, isolation and stress, all of which takes a toll on mental health and productivity. But we are here to remind everyone that it is alright to have these feelings and encourage each of you to reach out and support each other, especially those who have been directly affected\*.

At its core, the IAPSO ECS network is a community for early career oceanographers and there will be issues that are unique to our community that only we can identify and address.

Real systemic change comes from within and it is important to not only educate and empathize but also to actively act upon effecting change.

We have compiled a few educational resources and welcome additional contributions that we can actively share on our Twitter page. We also invite contributions from black and minority groups to share their experiences from an ECS perspective for our next newsletter. Your stories will be important reflection of why and how we can collectively do better for the community.

\*If you feel that there is no one in your area that can support you in the way you need, please send us an email ([info@iapsoeecs.org](mailto:info@iapsoeecs.org)). We may not always have the answers but we are a community and that means no one gets left behind.

## NATURE | 14 JUNE

Apply for the Nature Research Awards for Inspiring and Innovating Science, produced in partnership with The Estée Lauder Companies. Apply [here](#).

The Inspiring & Innovating Science programme consists of two categories:

- **The Achievement Award**

For an individual woman researcher of inspiring scientific achievement

- **The Outreach Award**

For a project or programme aimed at inspiring girls and young women to engage with and study STEM subjects or increase the retention rate of women in STEM careers.

The winners will receive:

- A grant of \$30,000
- Coverage on nature.com
- Training from Nature Masterclasses
- Mentoring, as well as an invitation to present their work or initiative to scientists at The Estée Lauder Companies.

## EGU | 15 JUNE

The Division Outstanding Early Career Scientist Award recognises scientific achievement made by an Early Career Scientist in the field(s) covered by the Ocean Sciences division. Congratulations to this year's awardee **Frédéric Le Moigne** for his work on the vertical exchanges of organic carbon between the surface and the ocean's interior: the biological carbon pump. Nominations for next year close on 15 June. More information can be found [here](#).

## SCOR | 17 JULY

The call for applications for an Early-Career Scientist (ECS) to join the SCOR Executive Committee is [open](#). The ECS in the SCOR Executive Committee will help reaching out to the broader early-career community and get it involved into SCOR activities.

Application instructions can be found [here](#). Please email the completed application form and requested documents to the SCOR Secretariat ([secretariat@scor-int.org](mailto:secretariat@scor-int.org)) by 17 July.
